

Stephen Todd Walker is frequently sought after by national and local media to discuss his investment views and book, **“Wave Theory For Alternative Investments.”**

**BNN Business Day
Venture Capital
and Social Media**
May 26, 2011

“People are talking about IPOs, and that’s indicative of venture capitalism. Venture capital moves in waves, and this is nothing new.”

“Asset allocation is critical to any portfolio. If you’re missing an important component in the portfolio, it can defeat the entire purpose.”

Gold investors need
nerves of steel**
June 10, 2011

“Unusual circumstances can lead to unusual results. Investors need to be on guard for the unexpected because the unexpected appears to be the norm today.”

“Just like today, gold was a hot topic in the 1970s, and investors wondered whether or not to jump in, wait, or take a pass.”

**Facebook investors
look for exits**
April 27, 2011

“For Facebook, the larger you get, the harder it is to have that explosive growth.”

“Managing risk is all about finding the right investment options. Despite all this chaos going on in the world, there are options to investors to help mitigate that risk.”
